Call for Demonstrations

The purpose of the demonstration session is to illustrate the technical advances in Smart homes, Health telematics, and their related technologies. This session provides industry and research labs a forum to showcase their products and prototypes.

Space and basic facilities (such as internet access and electricity) will be available. Standard booth will be 10'x10' or 5'x10' (as needed), with a 6' table clothed. No pipe, no drape. One easel will be provided per booth. Additional details will be available later. **Note that space is limited and will be assigned on a first-come-first-serve basis.**

Demonstrators are asked to register as delegates to ICOST 2008. No additional fees will be charged for the demonstration presentation.

How to Register for Demonstration session

- [STEP 1]: Please send the following information to smitra@iastate.edu with the subject line "ICOST 2008 Demo Registration" by April 18, 2008.
